

Introducing Lab-Based Intercept® Oral Fluid from Quest Diagnostics

Another proven choice from the nation's leading provider of drug testing services

Lab-based screening/GCMS confirmation

Self-collection

Device designed for observed collection

No bathroom required

More resistant to adulteration

Intercept® tests for:

- Marijuana
- Cocaine
- Opiates
- Amphetamines (including Ecstasy)
- Phencyclidine (PCP)

Certified lab results from an easy-to-use oral fluid collection device

Finally, confidential drug test results are available from an easy-to-use oral fluid collection method. The Intercept® test, from Quest Diagnostics, is the leading oral fluid laboratory-based test for the NIDA-5 drugs of abuse panel (marijuana, cocaine, opiates, amphetamines and PCP).

By using oral fluid instead of urine, donors can collect and seal their own samples. Intercept®, the non-invasive, self-collection drug testing method allows for on-site collection ... anytime, anywhere.

Using Intercept® is *Quick and Easy*
